

Editor: Mrs Hazel McGee

Papers Secretary: Nick James

The *Journal* is published six times per year, in February, April, June, August, October & December.

Library subscription (UK and surface mail overseas): £44.00. To purchase single copies or individual articles please see www.britastro.org/journal.

The Association is not responsible for individual opinions expressed in articles, letters, reviews or reports of any kind. Material published in the *Journal* does not necessarily express the views of the Council.

Contributions

Papers should be sent by e-mail (preferred) or by post (three copies) to the **Papers Secretary** at the address shown inside the back cover of each issue. They will be refereed, and, if approved by Council, published as soon as reasonably possible. Those wishing to speak at a meeting should contact the Meetings Secretary.

All other contributions should be sent to the Editor. As well as *Letters to the Editor*, she will be pleased to receive contributions to *Observers' Forum*, particularly interesting astronomical photographs, drawings and images. Colour images are especially welcomed. Photos and media will be returned only if a suitable stamped addressed envelope is enclosed.

Advertisements

Small advertisements should be sent to the Office, accompanied by the appropriate remittance. Members' small advertisements are FREE and may be sent directly to the Editor by e-mail.

Display advertisements and loose inserts: For a rate card and further information, contact Mrs Ann Davies, 11 Sedgefield Rd., Greenham, Newbury, Berks. RG14 7TZ. Tel. 01635 30598. E-mail anndavies@dsl.pipex.com.

Deadline

All material, including short letters and notes, must be received by the Editor by the following dates:

Issue	Date
2010 June	2010 April 25
2010 August	2010 June 15 (note earlier date!)

Later dates apply, by arrangement, to electronic advertising copy for which space has been reserved.

On the cover

Two drawings of the lunar surface by the late Harold Hill.

Top: Clavius, 2004 October 7, 04:15–06:05 UT. 203mm Maksutov–Cass.×266. Hill remarks: '...Clavius ...proved to be a quite irresistible sight and at possibly its most impressive appearance under late afternoon lighting. The W. wall shadow had not encroached sufficiently to mask the floor features and the crest of the great E. wall was still brilliantly lit and of arresting appearance.'

Below: The SSW polar regions under afternoon lighting. 1982 November 10, 05:05–06:00 UT. 208mm Schmidt–Cass.×245. See also Richard Baum's paper on page 86.
