

2008 MARCH

DAY	Xray class	Observers	John Cook (23.4kHz) Tuned radio frequency receiver, 0.58m frame aerial. START PEAK END (UT)	Roberto Battaiola (20.9kHz) Modified AAVSO receiver. START PEAK END (UT)	Nigel Curtis (23.4kHz) Gyrator receiver, shielded loop aerial. START PEAK END (UT)	Bob Middlefell (22.1kHz) Tuned radio frequency receiver, 0.5m frame aerial. START PEAK END (UT)	Mark Edwards (20.9kHz) Spectrum Lab / PC 2m loop aerial. START PEAK END (UT)
			Colin Clements (23.4kHz) AAVSO receiver, 0.76m screened loop aerial. START PEAK END (UT)	Karen Holland (19.5kHz) Tuned radio frequency receiver, 0.58m frame aerial. START PEAK END (UT)	Mike King (20.9kHz) AAVSO receiver. loop aerial. Tuned START PEAK END (UT)	John Wardle (18.3kHz) Gyrator MKII receiver, 1m loop aerial. START PEAK END (UT)	Peter King (16.8kHz) Gyrator MK II receiver, 1.4m loop aerial. START PEAK END (UT)

There were no flares in the GOES record from the 1st to the 10th, and 12th to the 22nd. There was a B5.9 on the 11th (05:58UT), and numerous B-class events from the 23rd to 31st. In complete contrast to this low level activity, there was an M1.7 flare at 18:55UT on the 25th. Occuring after sunset in Europe, we were unable to record this one! There were 3 active groups rotating into view at the time, all at about 10 degrees south latitude, and from cycle 23.

VLF flare activity 2005/8.
