Love Astronomy?

- Do you live or practice amateur astronomy in the Yorkshire Dales or North York Moors National Park?
- Could you spare 20 minutes to help with a research project?
- I am conducting interviews to discuss if / how observations are impacted by satellites and space debris.
- Please contact Dr Jack Lampkin via email at: j.lampkin@yorks.j.ac.uk to arrange a time and place to conduct an interview, at your convenience (by telephone, online or face-to-face).
- All interviews are anonymous.
- All forms of astronomy sought (naked eye, binocular, telescope, photography)
- Thank you for your help!
